"The Boy Scouts of America has adopted the principles of Leave No Trace, which are easy to learn and apply. Every outing and activity should be conducted with Leave No Trace in mind. As young people mature, we will enjoy an increasingly beautiful environment because of the impact of their training in Leave No Trace. As members of the Boy Scouts of America, we should be good stewards of our environment through knowledgeable use of resources. ... We all must take responsibility for our decisions when we use the outdoors, and we should treat the environment with respect so future generations can enjoy the outdoors as we do today." - *Teaching Leave No Trace* (BSA No. 21-117)

The youth leaders of a busy outdoor adventure program must be able to deal with how Leave No Trace applies to a variety of activities in a variety of environments during a variety of seasons ... all done in the company of a variety of Scouting youth and adults who have various levels of outdoor skills, self discipline, and commitment to an outdoor ethic.

This course is designed to train older youth (age 14 and older) and adults to serve as Leave No Trace Trainers for Scouting and the wider public and to provide participants with a deeper understanding of Leave No Trace to help individuals make and guide others in making good choices to minimize recreational impacts to help protect the wonderful outdoor locations they choose to enjoy. For a scout to serve as a Leave No Trace Trainer, he must complete the Leave No Trace Trainer Course.

Individuals planning trips to National High Adventure Bases, camp staff members, unit leaders and those in district or council training positions are urged to attend. The fee for the weekend is set at \$40.00 per person which includes camping fees, food and instructional resources. Registration deadline is October 12, 2010.
